

please leave indainas law in place for the phone solicitations. i love knowing when the phone rings it is more than likely a family member or a friend instead of a solicitor. i get enough junk mail and spams i don't want the phone calls anymore!!!!!! it has been peaceful. I have had them call me on Sundays before, at nine o'clock at night. I was getting atleast two to three phone calls a day. Sometimes the caller would call back and start all over again or just hold the phone without saying anything. I once had my phone service down and had to call the phone company because their computer that did the dialing was stuck on my number and i was getting phone calls every 15 mins. I don't want those annoying phone calls any more. Please respect our privacy....we pay too much for the phone service to have to be harassed by phone solicitors!!!! Thank you very much.....Barbara Ford
