

Before the
Federal Communications Commission
Washington, D.C. 20554

NOV 18 2002

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

In the Matter of)
Amendment of Section 73.202(b),)
Table of Allotments,)
FM Broadcast Stations.)
(Gonzales and Baton Rouge, Louisiana)

MB Docket No. _____
RM- _____

To: Chief, Audio Division
Media Bureau

PETITION FOR RULEMAKING

Guaranty Broadcasting Company of Baton Rouge, LLC (“Guaranty”), by its attorneys,
and pursuant to Section 1.420(i) of the Commission’s Rules, hereby respectfully requests that the
Commission initiate a rulemaking to make the following changes in its FM table of allotments:

City _____	Channel	
	Existing _____	Proposed _____
Baton Rouge, Louisiana	251C, 264C1 268C, 273C,	251C, 268C, 273C
Gonzales, Louisiana	-----	264C1

1. The instant proposal seeks the reallocation of Channel 264C1 from Baton Rouge,
Louisiana, to Gonzales, Louisiana. The channel is currently licensed to Guaranty for use by its
station WTGE, Baton Rouge. If the proposed reallocation is adopted, Guaranty will take all
steps necessary (including the submission of any necessary application) to modify the
authorization of WTGE to specify Gonzales as its city of license.

2. In *Amendment of the Commission’s Rules Regarding Modification of FM and TV
Authorizations to Specify a **New** Community of License*, 4 FCC Rcd 4870 (1989), *recon. granted
in part*, 5 FCC Rcd 7094 (1990), the Commission stated that in order to grant a change in

community of license: (1) the proposed use of the channel must be mutually exclusive with its current use; (2) the existing community of license must retain local service; and (3) the proposed arrangement of allotments must be preferred over the existing arrangement under the Commission's allotment priorities. The instant proposal meets each leg of that test.

3. First, the proposed use of Channel 264C1 at Gonzales is mutually exclusive with its use at Baton Rouge. Second, Baton Rouge will remain well served if this petition is granted. In addition to the three allocated FM channels, there are four noncommercial FM stations¹ and seven AM stations² licensed to serve Baton Rouge. Third, the proposal would provide Gonzales with its first local service, a preferred allotment priority.

4. There is no need for a showing under *Huntington Broadcasting Co. v. FCC*, 192 F.2d 33 (D.C. Cir. 1951) or *Faye & Richard Tuck*, 3 FCC Rcd 5374 (1988). While Gonzales is part of the Baton Rouge Urbanized Area, WTGE is already licensed to a city in that Urbanized Area. Therefore there is no issue of Guaranty seeking a preference under Section 307(b) of the Communications Act, and no attempt to remove a channel from a more rural to a more urban area.

5. The proposed reallocation requires no change in the WTGE transmitter site. The station already provides a 70 dBu signal over the entire community of Gonzales. See attached coverage map from current transmitter site of WTGE.

6. Simultaneously herewith Guaranty is submitting a Petition seeking consolidation of this matter with pending Media Bureau Docket No. 02-295, which proposes the reallocation of one of the only two FM stations licensed to Houma, Louisiana, to Gonzales. The instant proposal has a

¹ According to the Commission's CDBS system, these operate on Channels 203C3, 207C1, 212C3 and 216A.

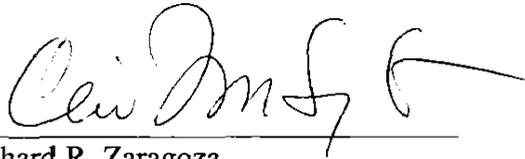

² According to CDBS, the following AM stations are licensed to Baton Rouge: WRBH, WIBK, WJBO, WNDC, WPFC, WXOK and WYNK.

number of superior public interest features to that set forth in MB Docket No. 02-295, and the public interest requires that these alternative proposals be considered in tandem.

For all these reasons, Guaranty requests that the Commission make the changes to the FM Table of Allotments specified in the instant petition.

Respectfully submitted,

Guaranty Broadcasting Company of
Baton Rouge, LLC
