

Telemarketers comprise 80% of the calls I receive. Since searching internet for mortgage rates, I have been getting calls 3 to 4 times EVERY day for the last 3 months!!

It is not just a momentary interruption, it is a major disruption of my concentration when i am working at home a few days a week.

please make it stop.. between it and the junk mail.. every day ..it feels like having drop in unwanted company that just never get the hint.

thank you.
