Dear _____:

Since AT&T started offering local service in Texas, you've had a choice — and the opportunity to get both local and long distance service from one well-respected company. Best of all, if you sign up today, the AT&T Local Service monthly plan fee is guaranteed through December 31, 2003.⁴

Unlimited local, regional and long distance calls

Now your words can cost the same, whether you're talking to someone next door or across the country. Enjoy the freedom of calling anyone, anywhere, anytime - and talking for as long as you want - with The Neighborhood. One low price covers all your state-to-state, in-state, regional and local toll calls, as well as every local call you make.

The most popular features at no extra charge

The Neighborhood isn't just about talking on your phone - it's about getting the most out of it. That's why features like Call Waiting, Caller ID, Speed Dial 8 and Three-Way Calling are included at no extra charge. So you can do things like: see who's calling before you answer, call someone at the touch of a button, get three people on the line whenever you want, and never miss an important call.

Personal Voicemail & Message Center

You don't always have to be on the phone to enjoy the features of The Neighborhood. In fact, our voicemail was built for the times when you're away from it. You can use our "Notify Me" feature to receive e-mail or pager alerts about new voice messages - then check your messages by phone or on the Web through the Message Center.

One company for everything

One company for everything

Now you can get both your local and long distance service - and all the calling features you want - for one price, from one place. The Neighborhood helps reduce hassles by sending you one easy-to-read bill for all your calls and features, and giving you one place to call if you need customer service.

Great partner programs

The Neighborhood doesn't just let you call more places, more often - you have the chance to earn more extras, more often, too. That's because every dollar you spend with The Neighborhood can help you accumulate partner rewards. [Click here to learn more.](#)

[back to top](#)

How does Neighbor-to-Neighbor calling work? How can I benefit from it?

Neighbor-to-Neighbor calling is one of the great benefits included with the Neighborhood Choice plan. Neighbor-to-Neighbor calling gives you unlimited long distance calls to other Neighborhood or MCI residential local customers - including state-to-state, in-state, regional and local toll calls. What's more, you can make these calls any time, any day of the week, without any extra charges - it's all included in the Neighborhood Choice plan. Note, the Neighborhood Complete plan includes unlimited long distance calls to anyone in the U.S., regardless of who their local service provider is.

[back to top](#)

The Neighborhood gives you the features you need to make talking easier. You get Call Waiting, so you never miss an important call and Caller ID, so you can find out who's calling before you answer. Plus it gives you Speed Dial 8 and lets you get several people together on the line at one time with 3-Way Calling. Best of all, these great features are included in The Neighborhood's one low price. If you would like to share The Neighborhood with the people you talk to the most, just [click here to send them a quick e-mail now.](#)

[back to top](#)

What is the benefit of getting both local and long distance service from The Neighborhood?

The great benefit of The Neighborhood is that all your calls can cost the same whether they're to someone next door or across the country. That means you can make long distance and unlimited local calls all for one low price.

[back to top](#)

Will I have to pay a fee to switch my service to The Neighborhood?

No, there is never a charge to switch your service to The Neighborhood.

[back to top](#)

How long will it take for my Neighborhood service to be established?

It can take up to three weeks to switch your local and long distance service to The Neighborhood.

[back to top](#)

How will I know when my Neighborhood service has been activated?

As soon as your account is set up with The Neighborhood, you will receive a Welcome Kit in the mail that summarizes the calling plan and features you have chosen for your phone. This will signify that your service has been activated. When you receive this kit, be sure to review its contents to ensure that the calling plan and features are the ones that you selected.

[back to top](#)

I have DSL with my current local telephone provider. What will happen to my DSL service when I switch to The Neighborhood?

At this time MCI does not offer DSL service. If you currently have only one phone line, and have DSL on the same line that is also used for voice service, you will need to cancel your DSL service with your current provider in order for MCI to switch your line to The Neighborhood. Alternatively, if you have two phone lines (one for voice calling and another for DSL), you may migrate only your voice line to The Neighborhood and retain your DSL service and second line with your existing local telephone company. In this case you should expect to receive two separate bills each month from the two different providers of the two services.

▶ **Why am I being billed by more than one carrier?**

While it is possible to receive more than one invoice for long distance calls, you should never be billed for the same calls twice. You may, however, receive more than one bill for the following reasons:

a. You may not have switched all of your telephone numbers to Talk America. Add your additional lines now by simply contacting the **customer service**.

b. The calls may have been made prior to your local telephone company changing your service to Talk America.

c. Another carrier may have switched your long distance carrier selection without your authorization.

d. Collect or third party calls will be billed from the carrier the caller used to reach you.

e. Dialing another carrier's access code prior to the number you are dialing would generate a bill for calls by that carrier.

You may want to contact your local telephone company and request a restriction on your telephone lines to The Phone Company, the name Talk America does business as in many jurisdictions. This will ensure your telephone lines remain on Talk America Long Distance. Your local telephone company may request our carrier identification code (CIC), which is 101-6746 or our Access Carrier Name Abbreviation (ACNA) code,

which is TVN, to make this change.

[▲ Back to Top](#)

▶ What are the billing increments for long distance service, and is there a minimum usage required?

The billing increments are as follows:

Business Accounts: 6 second increments with 60 seconds minimum

Residential Accounts: Full minute increments

*If you use long distance only, \$5 minimum monthly usage is required.

[▲ Back to Top](#)

[▲ Back to Top](#)

▶ Can I receive the invoice by mail?

Yes, with the additional \$1.95 fee for the paper invoice.

[▲ Back to Top](#)

▶ Is Talk America long distance available for business accounts?

Yes, we do offer Business Bundle and LD only plans. Online enrollment is currently unavailable for business plans, please visit **customer service** to request an agent contact.
