

Further deregulation of the broadcast industry only places more power in the hands of unscrupulous companies such as Clear Channel. The arrogance and total disregard with which its affiliates in Youngstown, Ohio handled the Congressman Traficant issue was nothing short of appalling. Ex-congressman Traficant (now blessedly serving 8 years in the Federal pen) was given carte blanche on Clear Channel's Youngstown affiliates to broadcast his brand of hate. So far as Clear Channel is concerned, there is no Constitution and no Bill of Rights. Stop the madness! Stop the monopolies! Sincerely,
