- NOTES:
- High Rates are deregulated rates which are out of price cap regulation due to pricing flexibility.
  - High Rates represent rates for the highest zone (Zone 3 for all entities, except Ameritech Zone 5).
  - High Rates represent month-to-month rates (*i.e.*, no long-term discounts).
  
  - Low Rates are regulated rates which are still subject to price cap rules.
  - Low Rates represent rates for the lowest zone (Zone 1 for all entities).
  - Low Rates reflect highest term plan offered, which varies widely among filing entities. (*e.g.*, 10 years for Qwest and 3 years for Pacific Bell DS-1 service).
