The Federal Communications Commission is considering taking actions that will restrict consumer choice by deregulating local phone service.

Millions of Americans like me could have their phone service threatened if the local phone companies aren't required to allow competitors access to the market. I'm also concerned about the Commission's move to relieve all broadband Internet access facilities of open access obligations.

Both of these key decisions will limit my choices as a consumer by lessening competition, diminishing cost savings and threatening consumer protections. As a constituent, I urge you to support competition and open access for local phone service.

Sincerely,

Karen Myers

Subject: UNE-P Telecommunications Competition

Dear (Commissioner, Representative, Senator, All Concerned):

I ask your support for the continued availability of the "UNE-Platform."

My company, MegaTelcom Inc., offers local telephone service primarily in the southeastern United States. The company has achieved increasing success largely because it utilizes the combination of "unbundled network elements" - the UNE-Platform - to serve customers. It is absolutely critical that we have continued access to the UNE-Platform to remain competitive.

Unfortunately, the Regional Bell Operating Companies have launched a full-scale attack on the UNE-Platform, realizing it is a major threat to their continued market dominance. Their strategy is to impose certain restrictions on individual network elements that would destroy the competitive value of the UNE-Platform. If anything, the platform should be increased to include **ALL** services the RBOC offers. Presently **ADSL**, & other Internet resale is blocked from the current UNE platform. If the **RBOCs** succeed, it will all but end any chance for consumers to enjoy the benefits of meaningful competition in local phone service.

Please oppose any effort that will limit the availability of the UNE-Platform. The UNE-Platform should be firmly and permanently established as a viable service option for competitive telecom carriers.

Thank you very much for your time and attention to this important matter.

Sincerely,

Peggy Bedwell

President

MegaTelcom Inc

**Subject:** UNE-P

Chairman Powell and Commissioners,

It is my sincerest hope that you will keep the UNE-P platform so that fair competition will exist in the telephone marketplace. I live in San Jose, CA, a city dominated by Pac Bell (now SBC). I can sum up my experience with Pac Bell as simply frustrating. It was frustrating because I felt helpless (there was no alternative service at the time) and at the mercy of a company that took advantage of their monopoly. I was very pleased when other carriers were available to me. I have seen the rewards of phone competition in the form of better customer service and better rates. The feeling of helplessness no longer exists. I now feel that my expectations of better service and more competitive rates are being realized. I had always expected it from Pac Bell but never received it. And as a result of alternative carriers I have a means conveying my dissatisfaction. Calling their customer service center never seemed to get things done before.

From what I've read, I feel the UNE-P platform is necessary for true competition to exist. Even with the platform, the local bell companies such as SBC still have blanket success in their respective regions. This is probably the result of the inability by alternative carriers to advertise themselves. The company I am currently using was referred to me by a friend. Previous to this, I did not know such alternative companies existed. And this goes to the core of the current argument that alternative carriers should not be allowed to lease the lines of the established local companies. The investment cost of entry into such a market is close to impossible based on the previous failures of so many companies that have tried to build the necessary lines and hope customers will sign up. Such companies barely have the resources to advertise themselves let alone buy the necessary infrastructure that's needed to enter into the market. The baby bells argue that it isn't fair that they have to lease their lines, but it is my opinion that having a monopoly on a service that at this moment is indispensable is the least fair. I have felt the consequences of a baby bell's monopoly power in the past and I sincerely hope I will never be in that position again. Thank you.

Worried Consumer,

Leonard Lao.

Subject: KEEP UNE-P

February 6, 2003

Dear Commissioners:

I ask your support for the continued availability of the "UNE-Platform."  
I am an attorney who represents Telecarrier Services Inc., which offers local telephone service in New York. The company has achieved increasing success largely because it utilizes the combination of "unbundled network elements" - the UNE-Platform - to serve customers. It is absolutely critical that competitive local carriers have continued access to the UNE-Platform to remain competitive, and benefit consumers.

Unfortunately, the Regional **Bell** Operating Companies have launched a full-scale attack on the UNE-Platform, realizing it is a major threat to their continued market dominance. Their strategy is to impose certain restrictions on individual network elements that would destroy the competitive value of the UNE-Platform. If the RBOCs succeed, it will all but end any chance for consumers to enjoy the benefits of meaningful competition in local phone service. In my opinion, the RBOCs achieved monopoly position as a result of many years of governmental promotion and protection and not through their own efforts. They should not be allowed to continue as monopolists, and destroy the small competitor, when the full benefits of competition are now beginning to flow to consumers and small businesses.

Please oppose any effort that will limit the availability of the UNE-Platform. The UNE-Platform should be firmly and permanently established **as** a viable service option for competitive telecom carriers.

Thank you very much for your time and attention to this important matter.

Sincerely,

John J. Leonard
