RE: WBSP-LP, Naples, Florida  
Notification of Return to Air

Gentlemen:

On behalf of Caloosa Television Corporation, licensee of Low Power Television Station WBSP-LP, Channel 9, Naples, Florida, this is to report that Station WBSP-LP returned to the air on June 14, 1999 and operated until June 22, 1999. A request for Special Temporary Authorization is transmitted under separate cover this date.

Should additional information be desired in connection with this matter, kindly communicate with this office.

Very truly yours,

  
Dennis J. Kelly

**RE: WBSP-LP, Naples, Florida**  
**Request for STA for Authority**  
**to be Temporarily Silent**

Gentlemen:

On behalf of Caloosa Television Corporation, licensee of Low Power Television Station WBSP-LP, Naples, Florida, this is to request a Special Temporary Authorization to be temporarily silent.

WBSP-LP had a "Special Temporary Authorization", granted by letter of the Commission dated May 27, 1999, to be temporarily silent through September 15, 1999.

On June 14, 1999, station WBSP-LP returned to the air, and operated continuously until June 22, 1999, when the station suffered what has been described by its Chief Engineer as a "massive transmitter failure".

Although as noted above there is in existence a "Special Temporary Authorization" lasting through September 15, 1999, we are filing this request out of an abundance of caution because station WBSP-LP returned to the air, and then involuntarily left the air. It is the intention of the licensee to return the station to the air as soon as practicable.

An "Anti-Drug Abuse Act Certification" is appended to this request.

-44-

Federal Communications Commission

July 30, 1999

Page Two

Therefore, the public interest, convenience and necessity would be served by a Commission grant of this special temporary authorization.

Should additional information be desired in connection with the above matter, kindly communicate with this office.

Very truly yours,

Request for STA for Authority  
to be Temporarily Silent

Gentlemen:

On behalf of Caloosa Television Corporation, licensee of Low Power Television Station WBSP-LP, Naples, Florida, this is to request to extend WBSP-LP's Special Temporary Authorization to be temporarily silent.

WBSP-LP had a "Special Temporary Authorization", granted by letter of the Commission dated August 16, 1999, to be temporarily silent through November 16, 1999.

Caloosa and its consulting engineering firm are working on a plan to relocate WBSP-LP's transmitter site. This, together with repairs to WBSP-LP's transmitting equipment, will allow WBSP-LP to return to the air. The public interest, convenience and necessity will be well served by a grant of this request for extension of the current special temporary authorization.

An "Anti-Drug Abuse Act Certification" is appended to this request.

Should additional information be desired in connection with the above matter, kindly communicate with this office.

**RE: WBSP-LP, Naples, Florida**  
**Request for STA to Return to**  
**the Air with Temporary Facilities**

Gentlemen:

On behalf of Caloosa Television Corporation, the licensee of Low Power Television Station WBSP-LP, Naples, Florida, this is to request a Special Temporary Authorization to return to the air with temporary facilities.

WBSP-LP left the air on June 22, 1999 because of equipment malfunction. WBSP-LP now seeks to return to the air with the temporary facilities authorized by the Commission in its letter of July 23, 1998 (see attached).

A summary of the facilities follows:

Transmitter Location: NL 26-03-08/WL 81-42-02  
Effective Radiated Power: 0.00354 kW  
Transmitter Output Power: 0.010 kW  
Antenna make: SCALA TVO (omni-directional)  
Frequency Offset: ZERO  
Height of Antenna Structure Above Ground: 9.1 meters

WBSP-LP will file an application in the next filing window.

An "Anti-Drug Abuse Act Certification" is appended to this request, as are the required FCC Form 159 and filing fee check.

-53-

Federal Communications Commission  
May 23, 2000

In re: LPTV or TV Translator Station of:  
Tamiami Fort Myers, Inc.  
WBSP-LP, Channel 9, Naples, FL

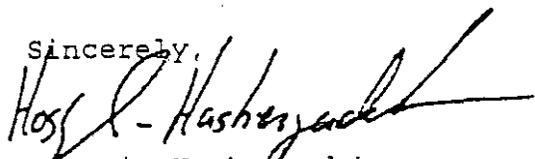

Gentlemen:

This *is* in reference to your request for Special Temporary Authority to operate the above-captioned proposed Low Power Television or Television Translator Station.

In light of the facts set forth therein, your request for Special Temporary Authority **IS** HEREBY GRANTED to operate the facility in accordance with the specifications in your letter of July 22, 1993. Effective Radiated Power: 0.00354 KW; Antenna make: Scala, Model: TVO (Omni); Frequency Offset: Zero; Height of antenna radiation center above ground: 9.1 meters; Height of antenna radiation center above mean sea level: 11.0 meters; Overall height of antenna structure above ground (including obstruction lighting, if any): 9.1 meters; Transmitting antenna coordinates: NL: 26-03-08, WL: 81-42-02; Transmitter output power: 0.010 KW. This authority is conditioned upon the avoidance of interference to any existing facilities, and subject to condition that you file application in next filling window.

This authority expires January 23, 1999, and is subject to the attached condition.

Sincerely,

Hossein Hashemzadeh  
Supervisory Engineer, LPTV Branch  
Video Services Division  
Mass Media Bureau

cc: Dennis J. Kelly, Esquire

RE: **WBSP-LP, Naples, Florida**  
**Request for STA to Return to**  
**the Air with Temporary Facilities**

Gentlemen:

On behalf of Caloosa Television Corporation, the licensee of Low Power Television Station WBSP-LP, Naples, Florida, this is to (1) request Special Temporary Authorization (STA) to temporarily **be** silent, retroactive to May 15, 2000, and (2) modify the May 23, 2000 request for STA to return to the air with temporary facilities.

WBSP-LP left the air on June 22, 1999 because of equipment malfunction. The public interest would be served by a grant of a short continuation of WBSP-LP's silent status; it is our intention to return WBSP-LP to the air not later than Monday, June 19, 2000 (repairs should be completed this week). WBSP-LP now seeks to return to the air with temporary facilities which are slightly different *from* those stated in our May 23, 2000 request. This is to avoid interference with the Media One cable system headend.

An "Anti-Drug Abuse Act Certification" is appended hereto.

Additionally, we hereby attach **pages** 3 and 4 of FCC Form 346 to this letter. A summary of the facilities follows:

Transmitter Location: NL 26-03-08/WL 81-42-02  
Effective Radiated Power: 0.0024 kW  
Transmitter Output Power: 0.010 kW  
Antenna make: SCALA TVO (omni-directional)  
Frequency Offset: ZERO

- 58 -

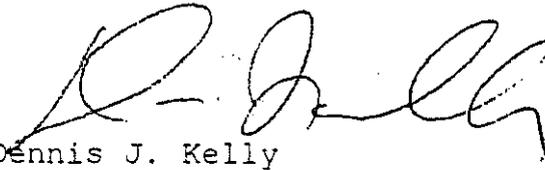

Mr. Mohammad Habib  
Federal Communications Commission  
June 9, 2000

- 2 For directional antennas in the horizontal plan show the direction of the main radiation lobe(s) in degrees with respect to true north in a 360 degree horizontal azimuth, numbered clockwise, with true north as zero azimuth.
- 3 Show overall height above ground in meters to topmost portion of structure, including highest top mounted antenna and beacon if any.
- 4 Show the ground elevation above mean sea level in meters at the base of the transmitting antenna supporting structure.
- 5 Give the actual power gain toward the radio horizon.
- 6 This is equal to the sum of the site elevation and the height of the antenna radiation center above ground.

-60-

Attach as an Exhibit a vertical plane sketch for the proposed total antenna structure, including supporting structure, showing overall height of structure in meters above ground, including lighting beacon (if any).

Exhibit No. --

7. Will the proposed antenna supporting structure be shared with an AM radio station?

Yes  No

If Yes, list the call sign of that station: --

8. Attach as an Exhibit a polar diagram of the radiation pattern (relative field) in the horizontal plane of the transmitting antenna showing clearly the correct relationship between the major lobe or lobes and the minor lobes of radiation and a tabulation of the pattern at every ten degrees and all maxima and minima. Applicants proposing use of multiple transmitting antennas shall submit a composite radiation pattern. If a non-directional transmitting antenna will be employed, i.e., an antenna with an approximately circulated radiation pattern, check here  and omit polar diagram and tabulation. If the antenna manufacturer and model number are on the Commission's list of common "off-the-shelf" directional antennas, check here  and omit polar diagram and tabulation.

Exhibit No. n/a

9. Has FAA been notified of proposed construction?

Yes  No

If Yes, give date and office where notice was filed: \_\_\_\_\_

10. Environmental Statement (See 47 C.F.R. Section 1.1301 et seq.)

Would a Commission grant of this application come within 47 C.F.R. Section 1.1307, such that it may have a significant environmental impact, including exposure of workers or the general public to levels of RF radiation exceeding identified health and safety guidelines issued by the American National Standards Institute?

Yes  No

If Yes, attach as an Exhibit an Environmental Assessment required by 47 C.F.R. Section 1.1311.

Exhibit No. --

If No, explain briefly why not.

Antenna to be affixed to existing fence post.

11. Unattended operation:

Is unattended operation proposed?

Yes  No

If Yes, and this application is for authority to construct a new station or to make changes in the facilities of an authorized station which proposes unattended operation for the first time, applicant will comply with the requirements of 47 C.F.R. Section 74.734 concerning unattended operation.

Yes  No

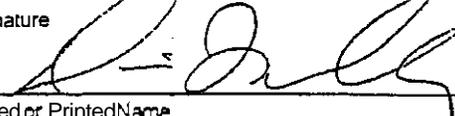

Is type approved broadcast equipment being specified?

Yes  No

If No, indicate date equipment was submitted to FCC Laboratory for approval: \_\_\_\_\_

I certify that I represent the applicant in the capacity indicated below and that I have examined the foregoing statement of technical information and that it is true to the best of my knowledge and belief.
