Re: Improving Public Safety Communications in the 800 MHz Band
WT Docket No. 02-55

Dear Ms. Dortch:

On March 24, 2003, Laura Smith and Jeremy Denton of the Industrial Telecommunications Association, Inc. (ITA) met with John B. Muleta, Shellie Blakeney, David Furth, Jeanne Kowalski, Catherine Seidel, D'wana Terry and Michael Wilhelm of the Wireless Telecommunications Bureau to discuss the above-referenced *NPRM* seeking comments on improving a public safety-CMRS interference problem in the 800 MHz band.

At the meeting, ITA briefed the Bureau on its position as a signatory to the Consensus Plan. ITA also discussed the broad base of membership support within its organization in favor of the Consensus Plan.

Specific information on ITA's position at 800 MHz can be found in the record as one of the Consensus Parties. If there is anything I may do to further assist the Commission, please do not hesitate to contact me.

Sincerely,

/s/ Jeremy Denton
