

I was made aware of the possibility of removing the rules for media ownership on Bill Moyer's tonight. I suspect that this is WHY the rules may be changed. Many people on both sides of the political spectrum should be concerned with march toward monopoly. Your responsibility is to us the public. WE are the ones paying your salaries. If you cave in to big money, WE will be the ones to suffer.

I'm sure you won't. But we will not forget who sold out their responsibilities and at some point even with a controlled media, we will respond at the ballot box.
