

I would like to expres my support for the Global Axxess proposal to become involved in the GX buyout. This is a legitimate proposal that FINALLY benefits the exixting shareholders of GX. For reasons to numerous to mention in this forum please expediate the approval of this request. From a middle class worker who has over \$100K invested in GX upon numerous recommendations and company expectations -- participation in this comapny is very important to our future. Thank you for your consideration.
