

The FCC must STOP the transfer of Global Crossing, Ltd (GX) to foreign agents. The GX bankruptcy is a fake. It is a fraudulent scheme to transfer ownership from the shareholders to foreign party where the illicit and illegal activity will be buried.

The FCC must:

Stop the sell-out of American investors.

Stop the sell-out of America's vital, secure telecommunications infrastructure.

Stop the inevitable threat to America's National security.

Stop the hemorrhage of Investor confidence.

Stop the loss of jobs, loss of pensions, loss of retirement funds.

The FCC must stop the Global Crossing Scam!
