

To Whom it concerns,

I have read and fully support the:

GLOBALAXXESS' RESPONSE TO ST TELEMEDIA PROPOSAL TO SUBMIT A MODIFIED APPLICATION FOR CHANGE OF CONTROL AND DECLARATORY RULING SEPARATE FROM HUTCHISON WHAMPOA

AND

NOTICE OF INTENT OF GLOBALAXXESS

Dated: May 9, 2003

This stuck out as did many other parts of the document:

" Where federal agencies such as FCC are being asked to put a rubber stamp on such conduct is inexcusable when one weighs how many lives were wasted financially for the "deal doers" to get their deal done. This Commission is not a mere facilitator for such deal doers to get their deals done."

In closing, I have a Bachelor of Science Degree in Business Administration with a concentration in Accounting from CSUB.

Regards, Charles Nelson

P.S. The FCC in it's requirement for 911 location has caused some shareholders to lose money in U.S. Wireless public corp which held patents on Radio Camera for 911 location. The FCC allowed for the promoters to claim a deadline the FCC set for OCT 2001(I believe) which turn out to be a deadline without any teeth. ETC...This is one of the reasons the above in-quotes "paragraph" stuck out like a sore thumb to me...

I have E-mailed 02-286 to Both state Senators and my local Congressmen Bill Thomas...With comments

Please excuse any errors as I am now legally blind.
