

Dear FCC:

It is with great respect that I write to you and request that you support Karl Schwarz and Global Axxess in their attempt to make a bid to take ownership of. Global Crossing {Americas own financial terrorists}. Everyone knows that ownership of this great asset should not leave the USA for obvious reasons, so I again ask that you please entertain the possibility of an HONEST person to own GX.

The innocent investors of the USA have been mistreated very badly and this is how the FCC can help.

Thank You,  
Paul Kolaczynski
