

Please do not adopt rules that will lead to more media consolidation. Having our sources of news controlled by fewer and fewer giant corporations will further constrict the scope of debate on public issues. Diversity of opinion is essential to the health of our democracy. Allowing media consolidation would jeopardize our free speech rights in the US. We need to have MORE companies to ensure that there are contrasting points of view presented not less. Do not change the rules AT ALL. We don't need conglomerates eating up the smaller players in the broadcast media. This will lead to fewer choices for us and LESS FREEDOM for all americans.
