

Dear Sirs:

I have 10,000 shares of Global Crossing bought in 2001 sitting in my 401K.

It is unbelievable to small investors like me to see so many corporate frauds in America, looting away our hard earned money.

It is staggering on how much indisputable evidence there is supporting the fact that stock fraud has been committed in the name of Global Crossing, and more is about to come. When it does, I am given to understand that we shareholders will send a clear message to the CFIUS, FCC, Bankruptcy Court, and our Government, that this situation can no longer be SHOVED UNDER THE CARPET. They will be more than ever under the microscope of the public eye, and better deal with this situation, or risk a MAJOR UPRISING that will result in a long term deterioration of confidence in the Financial Markets, Government Regulating Agencies, Justice system, and Political Party System.

I gather the above are the general opinion of GX shareholders and it is known to all of us that there are two bidders on Global Crossing once FCC come out to state that they will not allow STT to purchase GX. The two companies are GlobalAxxess and IDT. I am sure a lot of other companies will come out to bid GX once you see to it that GX open their books.

I hope you will look into this case for the interest and on behalf of all genuine stock holders.

Thank you.
