

Dear Chairman Powell - I am against the relaxation of the current FCC ownership rules. Our county's government is suppose to be a "representative" government. Ultra-rich media corporations do not represent myself, my friends, my family or my neighbors. So why are they catered to more than the average citizen, who are the backbone of this country. The consolidation of ownership under the pretense of being able to compete with the cable and internet is a rouse. Millions of American have turned to these sources out of frustration with the current established media empires - resulting in, for the first time, a truly competative and open market. The relaxation of the current FCC Broadcast Ownership Rules would infringe on the many sources that our now available to the public.

Thank you for your time.
