

When are you going to force the BIG NETWORKS and the greedy owners to get a little morality in their programs? American parents are fed up with this SOFT PORN and sexist programming we receive (and pay for) every night! We try to raise our children with some decency and you continue to allow these MEN to destroy females in the industry. Have any of you at the FCC watched MTV lately? Start doing your jobs instead of making the common WHORE the basis for televisions existence. Mr. Powell is thinking of his own personal agenda and could care less about the average American. We pay these people for this sick crap they're dishing out!!! What has happened to our news networks? In the aftermath of 9/11 you've decided to fill our minds with filth and sex? What is the difference between Hugh Hefner, Heidi Fleiss and Cable? The first two aren't backed by the FCC! TAKE CARE OF BUSINESS YOU GET PAID TO DO SO!! Stop allowing all networks to run shows like VICTORIA SECRET during child viewing hours or at all for that matter! You people need to think about how your decisions are effecting the American public! Grow up and do your job!!!
