

Attn: MB Docket No. 03-124

I am opposed to FOX becoming more of a monopoly than it already is. Fox News Channel spends all day, every day, claiming they are "fair and balanced" and parrying claims from others that they are not. Admitting they are biased would be bad enough. But continuing to deny it is just down right dangerous of them. Consider a quote from Senator John McCain, a REPUBLICAN and **CONSERVATIVE** legislator from Arizona:

"FOX News definitely leans towards the right..."

Office of the Secretary

Definitely a case of a "pot" identifying a "kettle" for what it really is.
