Subject: Automatic Location Information handsets

This letter is in response to your request for ALI capable phones to meet your October 2003 E911 deadline. Unfortunately, the wireless terminals supplied by our company do not currently have the software capability for ALI.

National Cellular cannot speak for all manufacturers of wireless terminals, but it is our understanding the ALI compatible handsets may be available by the fourth quarter of 2003. Once they are available for sale, I will advise CellularOne of NE Arizona so you can purchase those handsets so equipped.

If there are any further questions or concerns, please feel free to contact me.

Sincerely,

A handwritten signature in black ink that reads "Ron Sisco".
