(Chillicothe and Ashville, Ohio))

MM Docket No. 99-322
RM-9762

To: Assistant Chief, Audio Division

RESPONSE TO REQUEST FOR SUPPLEMENTAL INFORMATION

Clear Channel Broadcasting Licenses, Inc. ("Clear Channel"), licensee of radio station WFCB(FM), Chillicothe, Ohio, by its attorneys, hereby responds to the Commission's Request for Supplemental Information ("Request"), released on June 2, 2003, concerning the above-captioned proceeding. In the *Report and Order* in this proceeding, 17 FCC Rcd 20418 (rel. Oct. 18, 2002), the Commission reallocated Channel 227B from Chillicothe, Ohio to Ashville, Ohio, and modified WFCB(FM)'s license to specify operation on Channel 227B at Ashville. The Request nonetheless seeks a showing pursuant to *Faye and Richard Tuck*, 3 FCC Rcd 5374 (1988) ("*Tuck*"), to establish that Ashville is independent of the Columbus, Ohio Urbanized Area.¹ As this response establishes, Ashville is a thriving town listed in the 2000 U.S. Census

¹ The Commission requests this supplemental information while acknowledging that a showing of independence pursuant to *Tuck* was not required for the WFCB reallocation as proposed in this proceeding, because Ashville is not located within the Columbus Urbanized Area and WFCB provides only 2.7% of the Columbus Urbanized Area with a 70 dBu signal. See *Request for Supplemental Information*, DA 03-1842 (rel. June 2, 2003) at ¶ 2. Clear Channel's pending application for a construction permit to implement the WFCB reallocation (File No. BPH-20030508ACW) likewise specifies the station's existing transmitter site. The Commission's request for a *Tuck* showing is therefore designed to address a hypothetical future move of WFCB to a site from which the station would cover most or all of the Columbus Urbanized Area. Putting aside the rather unprecedented nature of the Request, this response shows that Ashville easily satisfies the *Tuck* standard with respect to that community's independence from Columbus.

074

with a population of 3,174 persons, fully independent from Columbus. See Exhibit 1 attached hereto.

DISCUSSION

Under *Tuck*, the Commission utilizes three criteria to determine whether or not the proposed community of license is entitled to a first local service priority: (1) signal population coverage; (2) relative size and proximity of the communities; and (3) the interdependence of the suburban community with the central city.

As discussed above, under the first criterion the reallocation of WFCB to Ashville at the station's licensed site would not provide 70 dBu service to more than 50% of the Columbus, Ohio urbanized area. See *Amendment of Section 73.202(b), FM Table of Allotments (Headland, Alabama and Chattahoochee, Florida)*, 10 FCC Rcd 10352 (rel. Sept. 19, 1995). Under the second criterion, Ashville (an incorporated village with a population of 3,174 according to the 2000 U.S. Census) is located approximately 19 miles away from Columbus (population of 711,470 according to the 2000 U.S. Census). See Exhibit 1. The intervening 19 miles between Columbus and Ashville is made up of several distinct villages and distances of commercially undeveloped land. See Ashville Village Administrator's Letter at Exhibit 3.

As the Commission stated in *Tuck*, the most important consideration is the independence of the specified community from the central city. The FCC relies on the following characteristics when assessing independence: (1) the extent to which community residents work in the larger metropolitan area rather than the specified community; (2) whether the smaller community has its own newspaper or other media that covers the community's local needs and interests; (3) whether community leaders and residents perceive the specified community as

being an integral part of, or separate from, the larger metropolitan area; (4) whether the specified community has its own local government and elected officials; (5) whether the smaller community has its own telephone book provided by the local telephone company or zip code; (6) whether the community has its own commercial establishments, health facilities, and transportation systems; (7) the extent to which the specified community and the central city are part of the same advertising market; and (8) the extent to which the specified community relies on the larger metropolitan area for various municipal services such as police, fire protection, schools, and libraries. All eight factors need not favor the applicant; however, if a majority of the factors demonstrate that the specified community is distinct from the urbanized area, the Commission will treat it as an independent community. *See Parker and Port St. Joe, Florida*, 11 FCC Rcd 1095, 1096 (1996).

(1) *Extent to which community residents work in the larger metropolitan area.* Ashville is home to several local businesses including one of its major enterprises and employers: Alcoa Metals Corporation. Alcoa employs approximately 180 hourly employees and over 45 salaried employees. The village does not keep formal data regarding where Ashville residents work. However, U.S. Census data for 2000 indicates that approximately 40% of Ashville residents work in Pickaway County, where Ashville is located.² *See Exhibit 1.* This is a far higher percentage than those in previous *Tuck* showings approved by the Commission.

(2) *Newspaper or other media.* Currently, no radio or TV stations specify Ashville as their community of license. Ashville does not have its own newspaper, but is served by the newspaper from nearby Circleville, Ohio, *The Circleville Herald*, and operates its own village

² Columbus, Ohio, by contrast, is in Franklin County.

website (www.ashvilleohio.net). Thus Ashville residents need not depend on Columbus media to cover local Ashville issues and concerns.

(3) *Whether community leaders and residents perceive themselves as separate from the larger metropolitan area.* Ashville was incorporated in 1882. A representative from the Ashville Area Heritage Society explains that the village post office was already in existence at the time of incorporation and was then housed in the village railroad station. Early businesses in Ashville date back to 1837 and include a grist mill, grocery store and saloon. Ashville civic organizations include the Ashville Business Association, Ashville Men's Club, Women's Civic Club of Ashville, and Ashville Kiwanis. *See Exhibit 6.* Ashville is 19 miles from Columbus, and, according to a representative from the village administrator's office, the area between Columbus and Ashville is at points desolate and without continuous commercial or residential development. In addition, state maps of Ohio indicate several distinct villages in the area between Columbus and Ashville. *See Rand McNally Road Atlas (2002).* Ashville operates a village website with information about village government, local businesses, civic organizations and village history. *See www.ashvilleohio.net.*

(4) *Local government and elected officials.* Ashville has its own local government and elected officials. Ashville is governed by a mayor and a six-member village council. Ashville also employs a village tax administrator, a village administrator with assistant and a zoning commissioner. The local village government also includes committees for such issues as safety, finance, facility management, planning, ethics and parks and recreation. Ashville's local government is housed in a village hall with village governmental offices. *See Exhibit 3.*

(5) *Telephone book or zip code.* Although Ashville is not issued its own telephone book from the local telephone company, Ashville does have a separate listing in the Circleville, Ohio telephone book local government listings. Ashville has its own post office and its own designated zip code shared with neighboring town South Bloomfield: 43103. *See Exhibit 2.*

(6) *Commercial establishments, health facilities, and transportation systems.* Ashville is home to significant commerce in addition to its major business and employer, AlSCO Metals Corporation. Ashville has two banks (The Citizens Bank and Savings Bank) and several lawyers. Ashville also has three grocery stores, including Albanese's Ashville IGA, and ten restaurants, including three pizza parlors and McDonald's, Dairy Queen and Subway Sandwiches franchises. Ashville is home to two car dealers, J & J Auto Sales and Star Brite Auto Sales. Ashville residents also patronize Royal Car Wash, four gas stations, two towing services (Jim's Towing and Tom's Auto Electric & Rental), three video rental shops, several beauty parlors and nail salons, two landscapers, two florists (Rose Trellis and Capi's Flowers & Gifts), and three antique shops, including Ashville Antique Mall. Ashville is also home to four apartment complexes, including Ashville Court. Ashville also has its own 18 hole public golf course. *See Exhibit 8.* Although Ashville does not have a municipal transportation system, it does not rely on the transportation system of any other municipality, including Columbus. Ashville also has several doctors and dentists, a pharmacy, and several veterinarians. *See Exhibit 5.* Ashville residents support more than ten churches. *See Exhibit 6.*

(7) *Advertising market.* There is no formal data available regarding Ashville's advertising markets. However, according to village office staff, Ashville businesses are most likely to advertise in *The Circleville Herald*, not the Columbus newspaper. *See Ashville Village Administrator's Letter at Exhibit 3.*

(8) *Reliance on the larger metropolitan area for municipal services.* Ashville has significant municipal services and does not rely on Columbus for such services. Ashville has its own water and sewer facilities and services. Ashville's electric service is provided by South Central Power Company, a cooperative with offices in Circleville, not Columbus. *See Exhibit 4.* Ashville is served by its own branch of the Harrison Township Fire Department and its own police department. Ashville also has an ambulance service that is provided by its fire department. *See Exhibits 3 and 5.*

Ashville children attend two elementary schools: Ashville Elementary School and Walnut Elementary School. Ashville also has its own middle and high schools: Teays Valley Middle School and Teays Valley High School. Residents have access to the Ashville Public Library, Floyd E. Younkin Branch. *See Exhibit 7.*

CONCLUSION

Ashville, Ohio is a community of 3,174 residents that properly received its first local transmission service as a result of the *Report and Order* in this proceeding. As shown herein, Ashville is indisputably an independent community, separate and distinct from the Columbus Urbanized Area, under the *Tuck* factors.

Respectfully submitted,

John A Karousos, Assistant Chief
Audio Division
Federal Communications Commission
236 Massachusetts Avenue, NW
Suite 110
Washington, D.C. 20002

Dear Mr. Karousos:

This is to inform the FCC that the village of Ashville is independent from the City of Columbus, Ohio. WFCB (FM) from Chillicothe, Ohio wants to move to our location.

Ashville is a separate and distinct village complete with its own local village government, as well as police, utility, and service departments. Fire protection is provided by Harrison Township in Pickaway County. The school system is Teays Valley. Ashville has a website which delineates village local government, school, and local businesses.

Ashville is located approximately twenty (20) miles south of Columbus. The distance between Ashville and Columbus is at points undeveloped and generally is without continuous commercial or residential development. Further, Ashville is in Pickaway County while Columbus is in Franklin County. Ashville was incorporated in 1882 and the village post office in fact pre-dates village incorporation. While the village does not keep formal data on the Ashville advertising market, Ashville Businesses are most likely to advertise in The Circleville Herald, not the Columbus newspaper.

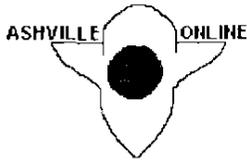

If you have any questions involving this matter contact me at 983 - 6367 or villageadministrator@ashvilleohio.net.

Sincerely,

Franklin Christman
Village Administrator

cc: Charles Wise, Mayor
Evan S. Henschel

"It is a place people will want to live, and businesses will want to locate."
