RE AT&T Corp Petition for Declaratory Ruling Regarding Enhanced Prepaid Calling Card Services
WC Docket 03-133

Dear Ms Dortch

AT&T has requested the Navy Exchange Service Command (NEXCOM) to provide the Federal Communications Commission with information regarding our contract with AT&T relative to the subject petition. The NEXCOM contract with AT&T is vast in scope covering all manner of personal telecommunication services to include the afloat-phone program aboard ships, pay phones, phones in bachelor officers' quarters, wireless Internet, the port call program, phones in Navy Lodges and the residential long-distance program. AT&T also sells to NEXCOM, through the contract, prepaid phone cards for resale to active duty service members and other authorized exchange patrons.

Through this contract, Navy, Marine Corps and Coast Guard exchange patrons can purchase prepaid phone cards in Military Exchanges and in vending machines on Military installations throughout the world. The prepaid cards enable the exchange customers to place calls to over 150 countries, thus providing service members the opportunity to call home from any duty station, ashore or afloat, in the world. Finally, this high quality service helps generate revenues that support quality of life programs for our military members and their families.

I will be happy to provide you any further information you may require. I may be reached at 757-631-3782.

Respectfully,

E. T. Knight, Jr.

E. T. Knight, Jr.
Sr. Contract Specialist
