

**EXHIBIT A**  
**DECLARATION**

## DECLARATION

I, Glenn S. Rabin, do hereby declare under penalty of perjury as follows:

1. I am the authorized representative of ALLTEL Communications, Inc. ("ALLTEL") in charge of ALLTEL's Petition for Designation as an Eligible Telecommunications Carrier ("ETC") in the State of Georgia. This affidavit is submitted in support of that Petition.

2. ALLTEL is authorized to provide cellular radiotelephone service in Georgia and is authorized to provide service in the requested ETC area described in its Application.

3. ALLTEL meets the criteria for ETC designation as explained herein.

4. ALLTEL is a "common carrier" for purposes of obtaining ETC designation pursuant to 47 U.S.C. § 214(e)(1). A "common carrier" is generally defined in 47 U.S.C. § 153(10) as a person engaged as a common carrier on a for-hire basis in interstate communications by wire or radio. Section 20.9(1)7 of the Commission's Rules provides that cellular service is a common carrier service. *See* 47 C.F.R. § 20.9(a)(7).

5. ALLTEL currently offers and is able to provide the services and functionalities identified in 47 C.F.R. § 54.101(a). Each of these services and functionalities is discussed more fully below.

a. Voice-grade access to the public switched telephone network. The FCC concluded that voice-grade access means the ability to make and receive phone calls, within a bandwidth of approximately 2700 Hertz frequency range. *See Federal-State Joint Board on Universal Service, CC Docket No. 96-45, First Report and Order, 12 FCC Rcd 8776, 8810-11 (1997) ("Universal Service Order")*. ALLTEL meets this requirement by providing voice-grade access to the public switched telephone network. Through its interconnection arrangements with local telephone companies, all customers of ALLTEL are able to make and receive calls on the public switched telephone network within the specified bandwidth.

b. Local Usage. Beyond providing access to the public switched network, an ETC must include local usage as part of a universal service offering. To date, the FCC has not quantified a minimum amount of local usage required to be included in a universal service offering, but has initiated a separate proceeding to address this issue. *See Federal-State Joint Board on Universal Service, Memorandum Opinion and Order and Further Notice of Proposed Rulemaking, 13 FCC Rcd 21252 (1998) ("October 1998 NPRM")*. As it relates to local usage, the NPRM sought comments on a definition of the public service package that must be offered by all ETCs. Specifically, the FCC sought comments on how much, *if any*, local usage should be required to be provided to customers as part of a universal service offering. *October 1998 NPRM* at 21277-21281. In the *Universal Service Order*, the FCC deferred a determination on the amount of local usage that a carrier would be required to provide. *Universal Service Order* at 8813. Any minimum local usage requirement established by the FCC as a result of the *October 1998 NPRM* will be applicable to all designated ETCs, not simply wireless service providers. ALLTEL will comply with any and all minimum local usage requirements adopted by the FCC.

ALLTEL will meet the local usage requirements by including local usage as part of a universal service offering.

c. Dual-tone, multi-frequency (“DTMF”) signaling, or its functional equivalent. DTMF is a method of signaling that facilitates the transportation of call set-up and call detail information. Consistent with the principles of competitive and technological neutrality, the FCC permits carriers to provide signaling that is functionally equivalent to DTMF in satisfaction of this service requirement. 47 C.F.R. § 54.101(a)(3). ALLTEL currently uses out-of-band digital signaling and in-band multi-frequency (“MF”) signaling that is functionally equivalent to DTMF signaling. ALLTEL therefore meets the requirement to provide DTMF signaling or its functional equivalent.

d. Single-party service or its functional equivalent. “Single-party service” means that only one party will be served by a subscriber loop or access line in contrast to a multi-party line. *Universal Service Order* at 8810. The FCC concluded that a wireless provider offers the equivalent of single-party service when it offers a dedicated message path for the length of a user’s particular transmission. *Universal Service Order* at 8810. ALLTEL meets the requirement of single-party service by providing a dedicated message path for the length of all customer calls.

e. Access to emergency services. The ability to reach a public emergency service provider by dialing 911 is a required service in any universal service offering. Phase I E-911, which includes the capability of providing both automatic numbering information (“ANI”) and automatic location information (“ALI”), is only required if a public emergency service provider makes arrangements with the local provider for the delivery of such information. ALLTEL currently provides all of its customers with access to emergency service by dialing 911 in satisfaction of the basic 911 requirement, and either provides, or will provide subscribers with Phase I and Phase II E-911 services in accordance with the deployment schedules agreed to by ALLTEL and local or other governmental emergency service provider agencies.

f. Access to operator services. Access to operator services is defined as any automatic or live assistance provided to a consumer to arrange for the billing or completion, or both, of a telephone call. *Universal Service Order*, 8817-18. ALLTEL meets this requirement by providing all of its customers with access to operator services provided by either the Company or other entities (e.g., LECs, IXC, etc.).

g. Access to interexchange services. A universal service provider must offer consumers access to interexchange service to make and receive toll or interexchange calls. Equal access, however, is not required. “The FCC do[es] not include equal access to interexchange service among the services supported by universal service mechanisms.” *Universal Service Order* at 8819. ALLTEL presently meets this requirement by providing all of its customers with the ability to make and receive interexchange or toll calls through direct interconnection arrangements the Company has with IXCs.

h. Access to directory assistance. The ability to place a call to directory assistance is a required service offering. *Universal Service Order* at 8821. ALLTEL meets this requirement by providing all of its customers with access to directory assistance by dialing “411” or “555-1212”.

i. Toll limitation for qualifying low-income consumers. An ETC must offer either "toll control" or "toll blocking" services to qualifying Lifeline customers at no charge. The FCC no longer requires an ETC to provide both services as part of the toll limitation service required under 47 C.F.R. § 54.101(a)(9). See *Universal Service Fourth Order on Reconsideration*, FCC 97-420 (Dec. 30, 1997). In particular, all ETCs must provide toll blocking, which allows customers to block the completion of outgoing toll calls. *Universal Service Order*, at 8821-22. ALLTEL currently has no Lifeline customers because only carriers designated as an ETC can participate in Lifeline. See 47 C.F.R. §54.400-415. Once designated as an ETC, ALLTEL will participate in Lifeline as required, and will provide toll blocking capability in satisfaction of the FCC's requirement. ALLTEL currently has the technology to provide toll blocking and will use this technology to provide the service to its Lifeline customers, at no charge, as part of its universal service offerings.

6. ALLTEL will provide the supported services using its existing network infrastructure, which includes the same antenna, cell-site, tower, trunking, mobile switching, and interconnection facilities used by the company to serve its existing conventional mobile cellular service customers.

7. I declare under penalty of perjury that the foregoing is true and correct. Executed on August 26, 2003.

Glenn S. Rabin  
Vice President, Federal Communications Counsel  
Its Authorized Representative

July 2, 2003

To Whom It May Concern:

In response to a letter filed on April 30, 2003, by ALLTEL Communications, Inc., Georgia RSA #12 Partnership and Georgia RSA #8 Partnership, the Georgia Public Service Commission hereby affirmatively states that the State of Georgia does not exercise jurisdiction over Commercial Mobile Radio Service providers for purposes of making determinations concerning eligibility for Eligible Telecommunications Carrier designations under 47 U.S.C. Section 214(e) and 47 C.F.R. Section 54.201 *et seq.*

In particular, the Georgia Public Service Commission affirms that ALLTEL Communications, Inc., Georgia RSA #12 Partnership and Georgia RSA #8 Partnership is not subject to jurisdiction of the State of Georgia for purposes of the foregoing determination.

Sincerely,

Robert B. Baker, Jr., Chairman  
Georgia Public Service Commission

Docket No. 96-45

Dear Ms. Dortch and Ms. Flannery:

On behalf of ALLTEL Communications, Inc., and in connection with its application before the FCC for status as an eligible telecommunications carrier in the State of Georgia, we hereby forward the attached certification for high-cost support under the Universal Service program pursuant to Sections 54.313 and 54.314 of the Commission's rules.

Sincerely,

Glenn S. Rabin  
Vice President  
Federal Communications Counsel

Enclosure

August 26, 2003

Re: ALLTEL Communications, Inc., Certification or High Cost Loop Support

Dear Ms. Dortch and Ms. Flannery:

This certification is submitted on behalf of ALLTEL Communications, Inc. ("ALLTEL") in connection with its application before the FCC for status as an eligible telecommunications carrier in the State of Georgia and in accordance with Sections 54.313 and 54.314 of the Commission's rules. On behalf of ALLTEL, I hereby certify under penalty of perjury that all high-cost support provided to the Company will be used for the provision, maintenance, and upgrading of facilities and services for which the support is intended, pursuant to Section 254(e) of the Telecommunications Act of 1996.

ALLTEL Communications, Inc.

Glenn S. Rabin  
Vice President  
Federal Communications Counsel  
Authorized Representative

Date: August 26, 2003

**EXHIBIT H**

**ANTI-DRUG ABUSE CERTIFICATION**

**EXHIBIT H**

**DECLARATION UNDER PENALTY OF PERJURY**

I, Glenn S. Rabin do hereby declare under penalty of perjury as follows:

1. I am the Vice President, Federal Communications Counsel for ALLTEL Communications, Inc. ("ALLTEL").
2. To the best of my knowledge, neither ALLTEL nor any of its officers, directors, or persons holding 5% or more of the outstanding stock or shares (voting and/or non-voting) as specified in 1.2002(b) of the Commission's rules are subject to a denial of federal benefits, including FCC benefits, pursuant to Section 5301 of the Anti-Drug Abuse of 1988, 21 U.S.C. § 862.
3. I declare under penalty of perjury that the foregoing is true and correct. Executed August 26, 2003.

Glenn S. Rabin  
Vice President, Federal Communications Counsel  
ALLTEL Communications, Inc.
