

I oppose the removal of Element 1 from the General and Extra Class license. 5wpm is at a slow enough speed that anyone wishing to put forth a small amount of effort can pass the requirement.

The Morse requirement has been a long standing tradition for the Amateur Radio Service and I would like to see it continued. If I were to recommend any changes it would be to reinstated either a 13 or 20wpm requirement for advancing to the extra level.

Sincerely,

Floyd A. Reynolds KB8JVH
