The Federal Communications Commission is considering taking actions that will restrict consumer choice by deregulating local phone service

Millions of Americans like me could have their phone service threatened if the local phone companies aren't required to allow competitors access to the market. I'm also concerned about the Commission's move to relieve all broadband Internet access facilities of open access obligations.

Both of these key decisions will limit my choices as a consumer by lessening competition, diminishing cost savings and threatening consumer protections. As a constituent, I urge you to support competition and open access for local phone service.

Sincerely,

Richard L Quinn

Subject: "UNE-Platform"

February 5, 2003

Dear Commissioner Adelstein

I ask your support for the continued availability of the "UNE-Platform."

My company, Communication & Energy Solutions, offers local telephone service in Illinois. The company has achieved increasing success largely because it utilizes the combination of "unbundled network elements" - the UNE-Platform - to serve customers. It is absolutely critical that we have continued access to the UNE-Platform to remain competitive.

Unfortunately, the Regional Bell Operating Companies have launched a full-scale attack on the UNE-Platform, realizing it is a major threat to their continued market dominance. Their strategy is to impose certain restrictions on individual network elements that would destroy the competitive value of the UNE-Platform. If the RBOCs succeed, it will all but end any chance for consumers to enjoy the benefits of meaningful competition in local phone service.

Please oppose any effort that will limit the availability of the UNE-Platform. The UNE-Platform should be firmly and permanently established as a viable service option for competitive telecom carriers.

Thank you very much for your time and attention to this important matter.

Sincerely,

Robert Marczyk

PLEASE . keep telecom COMPETITIVE.

Not like cable TV (only gets more and more expensive)

- KEEP Line Sharing
- ALLOW CLEC ACCESS to Remote Terminals
- Consider DSL/Data = to Voice

THANK YOU,
Robin Richter

Dear Commissioner Jonathan S. Adelstein,

I ask your support for the continued availability of the "UNE-Platform "

My company, Spin Networks offers local telephone service in the New England area. The company has achieved increasing success largely because it utilizes the combination of "unbundled network elements" - the UNE-Platform - to serve customers. It is absolutely critical that we have continued access to the UNE-Platform to remain competitive.

Unfortunately, the Regional Bell Operating Companies have launched a full-scale attack on the UNE-Platform, realizing it is a major threat to their continued market dominance. Their strategy is to impose certain restrictions on individual network elements that would destroy the competitive value of the UNE-Platform. If the RBOCs succeed, it will all but end any chance for consumers to enjoy the benefits of meaningful competition in local phone service.

Please oppose any effort that will limit the availability of the UNE-Platform. The UNE-Platform should be firmly and permanently established as a viable service option for competitive telecom carriers.

Thank you very much for your time and attention to this important matter.
