

Dear FCC,

I highly recommend that you retain the 5-WPM Morse code testing to become an General or Extra class Amateur radio operator for the HF Bands. Yes, learning and passing the Morse code was the most difficult thing I ever had to do in my 50 years of life. At first I had a mental block with the code until a fellow HAM took me under his wing. I guess I am from the old school of thought, If you want something bad enough then you have to work for it and not have it handed to you on a platter.
