

Supra Telecon is blackmailing all the customers in South Florida. In a recent letter from Supra Telecom they have stated that they were going to charge a \$20 surcharge to all customers using Broadband DSL over their lines. The only way to avoid the charge is to pay them \$13.95 for their 5x High Speed dial up. So you can pay them for their service or be charged a higher surcharge. I called and told them that it was blackmail. The customer service person I spoke to claims he never heard of such a thing.

Signed
