

Please take action to protect migratory birds.

Please begin a systematic review of communication tower and bird mortality issues;

Institute a research program, funded by the communications industry, to identify tower placement, design and lighting conditions that result in bird mortality;

Undertake environmental reviews of all existing towers to assess their placement and design with regard to migratory bird impacts;

Require that all proposed towers be subjected to rigorous environmental reviews;

Implement immediate protections based on existing knowledge, such as the voluntary tower siting and placement guidelines developed by the U.S. Fish and Wildlife Service.
