Dear Sir or Madam:

We are making a Request for Waiver for the Deadline for our 472 forms for the USAC. On September 18, 2003, we received a request for additional information from the Program Integrity Assurance Department of the Schools and Libraries Division. We promptly replied to the email and provided the necessary information. I followed up with a telephone call (case # 1-3574506) to clarify about our filing of forms and were told that we could not file anything until after we received the Funding Commitment Letter and the we had 120 days after we this letter to file our 472 forms.

Our Funding Commitment Letter was postmarked October 21, 2003 and we received it on October 23, 2003. Today, as I began to work on the 472 Forms, I realized that the Program Integrity Assurance request was for the 2004 funding year, and not the 2003 funding year, and that the 120 day filing deadline information I received was in error. The deadline for filing the 472 forms for 2003 was in fact yesterday, October 28, 2003. We do not have the additional 120 days we thought we had, and are requesting an extension of 30 days, till the end of November, to remedy this misunderstanding.

Many thanks for your kind consideration,

Scott Reinhart
Assistant Director
