RE: RM-10805

Dear Commissioners,

This petition will create new sub-bands and return to the Technician Plus Class License.

The return of the Technician Class license will reverse the course in which the FCC was heading in 1999. We really don't need more license classes.

The removal of Element I , as requested in RM-10786 & RM-10787, will have a greater impact on upgrading.

Please deny this petition.

Regards,
Melvin Lehmann
