

I am FOR (in favor of) this petition.

I believe it is necessary to EARN rights and privileges to call oneself a qualified Amateur Radio Operator.

Remember that you, the FCC, will appear to be "dumbing down" to a lower class of operator. You only have to look back at the CB debacle to see what will erupt in your faces if the Morse code requirement is eliminated.

With all respect,

Thank you from a 50 year licensed Amateur Radio Operator.
