

Although this petition calls for keeping Element One 5 wpm Morse code proficiency testing for the Extra class, it proposes eliminating it for the General class. I am totally against eliminating Morse code proficiency testing for the General and / or Extra class licenses, but I am all for granting the Technician class licensees limited HF phone, CW and data privileges. Limited HF privileges for Technicians would encourage many Technicians to learn CW and upgrade to General and Extra.

Respectfully Yours,

Mark M. Oring
