**Re: Implementation Plan of Wireless E-911 Phase II
Automatic Location Identification
Notice Pertaining to CC Docket No. 94-102**

SUPPLEMENT TO AMENDED E-911 PHASE II STATUS REPORT

Dear Ms. Dortch:

On October 10, 2003, we electronically filed with the Commission our "Amended E-911 Phase II Status Report" (the "Amended Report") in accordance with the Third Report and Order in CC Docket No. 94-102 and the Commission's related Public Notice, Mimeo DA 00-2099, released September 14, 2000, which described the status of our implementation plans for wireless E-911 Phase II Automatic Location Information ("ALI").

We hereby supplement the Amended Report at Item No. 7 to reflect that the Telecommunications Division of the California Department of General Services (the state agency responsible for California's E-911 planning and roll-out functions) has changed the E-911 roll-out schedule for San Luis Obispo County. The amended Item No. 7 is as follows:

7) **Other Information**: Our switch has Phase I ALI capability but, as noted above, the State of California has decided to deploy Phase I ALI and Phase II ALI simultaneously, rather than in separate steps. We have received no PSAP requests for Phase I or Phase II ALI.

As reflected on Attachment A hereto (an E-911 roll-out map, dated November 7, 2003, prepared by the Telecommunications Division of the California Department of General Services), we will not receive any E-911 requests for our area (i.e., San Luis Obispo County) until Calendar Year 2004.

Respectfully submitted,

**SLO Cellular, Inc. d/b/s
