"PAETEC is a new breed of integrated communications provider. We do more than simply enable world-class communications - we ensure it. Our customer satisfaction rates hover consistently in excess of 99 percent, and we enjoy churn rates far below those of our competitors. Results like this don't happen by accident - they happen because we work tirelessly to improve our processes, our products, our client relationships, and ourselves."

*Arunas Chesonis
Chairman, CEO and Founder, PAETEC Communications*

Meeting Increasing Demands

Today’s well-connected consumers are demanding more from business – more access, more information, more flexibility. Chances are, your business is already struggling to meet this demand. Costs are escalating, time is wasted. It’s a problem.

Spend Less, Deliver More

The Pinnacle Communications Management Software is the solution. Pinnacle is a powerful browser-based system that provides centralized, comprehensive control of both the operations and the cost-management functions of your convergent communications infrastructure. Pinnacle helps you spend less on your infrastructure but deliver more to your customers.

Comprehensive Functionality

Workflow optimization. Service provisioning. Asset management. Invoice reconciliation. Pinnacle integrates it all with power, simplicity, and elegance. From work order processing to cable plant management, Pinnacle leads the industry in integrated communications management.

You’re in Control

Like every PAETEC offering, Pinnacle assists you on your own terms. Exactly how much control do you want? Some organizations want to self-manage their entire Pinnacle system. Others want less direct involvement in back-office administration, and use Pinnacle to manage their infrastructure through PAETEC’S hosted Application Service Provider (ASP) capabilities. Some do both. The choice is yours.

Simplify Your Business

Modern communications needn’t complicate your business. Discover sophistication made simple with Pinnacle. Your customers will see the difference.
