Ex Parte Communication

Ms. Marlene H. Dortch
Secretary
Federal Communications Commission
445 12th Street, S.W.
Washington, D.C. 20445

Re: IB Docket No. 95-91

Dear Ms. Dortch:

Yesterday, Ann Bobeck and the undersigned of NAB met with Commissioner Kevin Martin, Samuel Feder, Commissioner Jonathan Adelstein, Johanna Mikes, Donald Abelson, Linda Haller, Richard Engelman, Steven Spaeth, Thomas Tycz, Jennifer Gilsean, Joann Lucanik, Stephen Duall, and Shabnam Javid. We urged the Commission to adopt in its final service rules for operation of Satellite Digital Audio Radio Service ("SDARS") repeaters the language proposed by XM Radio, Inc. ("XM") and NAB in their joint December 23, 2003 *Ex Parte* Presentation. Specifically, XM and NAB proposed the following condition:

SDARS repeaters are restricted to the simultaneous transmission of the complete programming, and only that programming, transmitted by the satellite directly to SDARS subscribers' receivers, and may not be used to distribute any information not also transmitted to all subscribers' receivers.

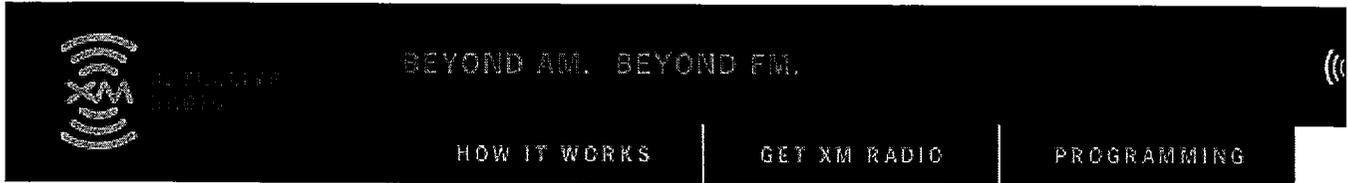

Additionally, we discussed XM's recent announcement to launch local weather and traffic service in 21 markets beginning March 1, 2004, and the implications of that service and other local services that SDARS licensees might offer. A copy of that announcement is attached.

Respectfully submitted,

A handwritten signature in black ink that reads "Jack N. Goodman".

Jack N. Goodman
