Cleburne Independent School District requests a waiver to move services for a Gigaman line provided by Southwestern Bell Telephone Company from our new Marti Elementary School to Cleburne High School. Our original intention was to put in a Gigaman line when our new school was built as we put Gigaman lines from the Administration Building to the Education Service Center and the middle school to the Administration Building. We budgeted for these three Gigaman lines. As the construction progressed, it was decided that it was more important to connect the high school with a Gigaman line than to connect the new elementary school. A T-1 line was installed to the new elementary school and a Gigaman line replaced the T-1 line that was at the high school. FRN 931086 was figured on the telephone company estimate and 62% discount for services to the new Marti Elementary School. It should be refigured for the 50% discount rate for Cleburne High School. The monthly rate for the high school Gigaman line is slightly higher than the estimate for Marti Elementary School, so the pre-discount amount is fine and does not need adjustment.

Signed,
Jerry Smith
