Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Susan Adams

JAN - 6 2004

Federal Communications Commission
Office of the Secretary

November 7, 2003

Federal Communications Commission Chair Michael Powell
FCC
445 12th Street SW
Washington, DC 20554

Dear Federal Communications Commission Chair Powell:

CC Docket Nos 96-45, 98-171, 90-571, 92-237, 99-200, 95-116, 98-170 and
NSD File No. L-00-72.

I am opposed to the proposed changes to the Universal Service Fund. I urge the FCC to carefully consider the impact of these changes on consumers before changing the current system. Charging \$1 or more per month regardless of how much or how little we use our phone is not fair. This will greatly increase the cost of phone service and it could impact the ability for myself and others to afford landline and/or wireless service.

The USF was created to make phone service affordable in rural America and was updated to increase the availability of communication services to schools, libraries, rural health centers, educational institutions and low-income individuals in the United States. Now you want to change it and I do not think it is fair to charge everybody \$1 dollar per month regardless of how much or how little they use their wireless phone for interstate calls.

The proposed change is especially unfair for low-volume users that rely on wireless service for safety and security, and who make few, if any, long distance calls. A contribution system is fair, equitable and nondiscriminatory and should be left alone. Please do not penalize wireless phone customers. Keep this fair. We don't have a blanket income tax on our annual salaries nor do we have the same sales tax on a pack of gum and an automobile, so why should there be a "one size fits all" charge for wireless phones?

Sincerely,

Andrew Henderson
