

Telephone Soliciting: I am on the National Do-not-call List and I keep getting a call from the following Toll-Free number 800-379-8414. The person on the phone says his name is Chris , asks for me, but will not identify his company. I would like to see this company fined and I would also like to sue the company as per the FCC regulations. Please find them, fine them, and let me know who they are for me to pusue. I looked at the internet and see complaints from many other people about the same number (There is no reverse lookup on this number).

Thank you for your anticipated cooperation. You can also email me at
