Re: Notice of Ex Parte Presentation in CC Docket Nos. 96-45, 98-171, 90-571, 92-237,
99-200, 95-116, 98-170, and NSD File No. L-00-72

Dear Ms. Dortch:

On February 24, 2004, F.J. Pollak, President and CEO of TracFone Wireless, Inc. ("TracFone"), Diane Blagman and I of this law firm met with Commissioner Jonathan Adelstein and Barry Ohlson, Legal Advisor to Commissioner Adelstein.

During these meetings, Mr. Pollak, Ms. Blagman and I reiterated the positions that TracFone has taken in its filed comments and prior ex partes in the Universal Service Contribution Methodology proceeding. In particular, we emphasized that any connection-based or telephone number-based contribution methodology would harm lower income and lower volume consumers. We also discussed TracFone's support for the elimination of the wireless safe harbor as well as support for additional measures to expand the contribution base. In addition, we provided data based upon a report of the Telecommunications Industries Association which indicates that the interstate telecommunications service revenue base is expected to continue to grow over the next several years. We believe that the data contained in the TIA report contradicts assertions made by others that the interstate telecommunications service revenue base is shrinking and will not be able to support the needs of the Universal Service Fund. A copy of the table used during our meeting is enclosed herewith.
