**Re: Digital Content Protection Technologies and
Recording Methods to be Used in Covered
Demodulator Products – D-VHS Technology**

Dear Sir or Madam:

Enclosed for filing please find a substitute Appendix F (D-VHS Beneficiary Agreement for Providers of Recordable High-Definition Content) to the Broadcast Flag Certification that was submitted on behalf of Victor Company of Japan, Ltd. ("JVC") with your office on March 1, 2004. By this filing, we request that the document that was submitted as Appendix F in the original filing be replaced by the document that is filed herewith. The need to make this substitution arises from the fact that, in reviewing the documents submitted as part of the original certification filing for JVC, it was determined that the version of this document that was submitted on March 1 was not the currently offered version of this agreement. Accordingly, after discussion with FCC staff, we are making this filing to request the substitution so that the record contains the current (and final) version of this document.
