Federal Communications Commission  
Office of the Secretary

Dear Chairman Powell,

As a consumer of broadcast television, electronics, and computer products, I urge the Federal Communications Commission to vote against the adoption of a "broadcast flag." I am gravely concerned that a broadcast flag regulation would restrict the way I enjoy television.

The digital television transition relies on convincing consumers of the benefits of switching to and buying digital television equipment. That transition will be far more palatable to me as a consumer if switching doesn't mean discarding my existing home network, buying new high-resolution displays, and finding room for yet another device in my living room. Please do not allow the MPAA and its allies to hinder the transition by making us buy special-purpose DTV devices that are more expensive and less valuable.

In addition, I am very concerned about the fair-use implications of the broadcast flag. With today's technology, I can be more than a passive recipient of content -- I can modify, create, and participate. I can record TV to watch later; clip a small piece of TV and splice it into a home movie; send an email clip of my child's football game to a distant relative; or record a TV program onto a DVD and play it at my friend's apartment. The broadcast flag seems designed to remove this control and flexibility that I enjoy.

If the move to digital television does not make the public's viewing experience more enjoyable, flexible, and exciting, what compelling reason do I have as a consumer to buy new digital equipment? A prettier TV picture is hardly enough reason for me to dispense with all my current consumer electronics and computer equipment. As a citizen and consumer of broadcast television, I urge you to promote the digital transition by opposing the broadcast flag.

Sincerely,

Keith Myers  
31717 Ridge Route Rd. #214  
Castaic, CA 91384

October 17, 2003

Chairman Michael K. Powell  
Federal Communications Commission  
445 12th Street, NW  
Washington D C 20554

Dear Michael Powell,

I am writing to voice my opposition to any FCC-mandated adoption of "broadcast flag" technology for digital television. As a consumer and citizen, I feel strongly that such a policy would be bad for innovation, consumer rights, and the ultimate adoption of DTV.

A robust, competitive market for consumer electronics must be rooted in manufacturers' ability to innovate for their customers. Allowing movie studios to veto features of DTV-reception equipment will enable the studios to tell technologists what new products they can create. This will result in products that don't necessarily reflect what consumers like me actually want, and it could result in me being charged more money for inferior functionality.

If the FCC issues a broadcast flag mandate, I would actually be less likely to make an investment in DTV-capable receivers and other equipment. I will not pay more for devices that limit my rights at the behest of Hollywood. Please do not mandate broadcast flag technology for digital television. Thank you for your time.

## Revision of High-Cost Universal Service Support Mechanism for Non-Rural Carriers

In response to a remand by the U.S. Court of Appeals of the Tenth Circuit, the FCC upheld current support levels, but revised its high-cost universal service support mechanism for the largest local telephone companies.

In the Order on Remand, Further Notice and Memorandum Opinion and Order the FCC:

- Required the states to compare rates in their rural areas with a nationwide urban rate benchmark to determine whether or not such rural an urban rates are reasonably comparable.
- Concluded that a rate review and expanded certification process will induce states to achieve reasonably comparable rates.
- Reaffirmed that comparing statewide average costs to a nationwide cost benchmark appropriately determines high-cost support for non-rural carriers
- Defined the statutory terms "sufficient" and "reasonably comparable" more precisely.
- Modified the high-cost mechanism for non-rural carriers by basing the cost benchmark—which is used to determine the amount of support—on two standard deviations above the national average cost per line.
- Seeks comment in a Further Notice on issues related to the rate review and expanded certification process. Additionally, the Further Notice seeks comment on whether or not additional targeted federal support should be made available to states that implement explicit universal service mechanisms to encourage states to adopt universal service mechanisms that will be sustainable in a competitive environment.

Comment dates are not yet available and will be published when released.

To view the release, visit [http://hraunfoss.fcc.gov/edocs\\_public/attachmatch/DOC-240035A1.doc](http://hraunfoss.fcc.gov/edocs_public/attachmatch/DOC-240035A1.doc).

## NBANC Revises Fund Estimate; Reduction of Contribution Factor

The North American Billing and Collection Inc. (NBANC) submitted a revised fund size estimate for the funding of the North American Numbering Plan Administration (NANPA). This revision will result in a reduction of the contribution factor for the July 2003–June 2004, billing period from 0.000036 to 0.000021. If the FCC approves the revision, NBANC will refund carriers that have paid the full amount and adjust future payments for those that have not paid in full.

For more information, contact OPASTCO Technical Director John McHugh, 386/673-7955 or [jtm@opastco.org](mailto:jtm@opastco.org).

## OPASTCO NEWS

### CALL FOR NOMINATIONS FOR OPASTCO 2004 BOARD OF DIRECTORS

All names of qualified and enthusiastic candidates for the Board of Directors should be submitted to:

Arturo Macias, c/o Wheat State Telephone Company, 106 West First, Udall, KS, 67146 or c/o OPASTCO Nominations, 21 Dupont Circle N.W., Suite 700, Washington, DC, 20036.

### FRED SCHOLARSHIP BROCHURE UPDATE

FRED Scholarship and Leadership Through Learning brochures will arrive late next week or in the early part of the following week. If you do not receive your company's copy, please go to [www.fred.org](http://www.fred.org) where you can download a copy of both the brochure and the application. Questions? Contact Mindy Atwood, FRED program coordinator at [msa@opastco.org](mailto:msa@opastco.org).

### **Magruder to Attend Midwest Expo**

OPASTCO Director of Membership Lora Magruder will be attending the Midwest Telecommunications Expo and Conference, October 20-22, at the Grand Wayne Center in Fort Wayne, Ind. Please stop by booth # 113 to visit with OPASTCO and associate member National Farmers Union Property and Casualty Companies.

### **Important Info Regarding OPASTCO Phone Service**

On October 22nd, telephone service to the OPASTCO office will be unavailable until after 12:00 noon EST, due to the installation of OPASTCO's new voice mail system. In the event you need to reach a member of the OPASTCO staff during that time, please contact us via e-mail. A complete list of staff email addresses is available at <http://www.opastco.org/stafflist.htm>.

### **CALL FOR VOLUNTEERS**

OPASTCO is accepting nominations for committee volunteers. To download the form, visit [www.opastco.org](http://www.opastco.org). For more information, contact OPASTCO Office Manager/Board Liaison Vanessa Fountain-Allen, 202/659-5990 or [vf@opastco.org](mailto:vf@opastco.org). The last day for the Call for Volunteers is November 1, 2003.

I can record TV to watch later; clip a small piece of TV and splice it into a home movie; send an email clip of my child's football game to a distant relative; or record a TV program onto a DVD and play it at my friend's apartment. The broadcast flag seems designed to remove this control and flexibility that I enjoy.

If the move to digital television does not make the public's viewing experience more enjoyable, flexible, and exciting, what compelling reason do I have as a consumer to buy new digital equipment? A prettier TV picture is hardly enough reason for me to dispense with all my current consumer electronics and computer equipment. As a citizen and consumer of broadcast television, I urge you to promote the digital transition by opposing the broadcast flag.

Sincerely,

Nathan Chang

Dear Chairman Powell,

As a consumer of broadcast television, electronics, and computer products, I urge the Federal Communications Commission to vote against the adoption of a "broadcast flag." I am gravely concerned that a broadcast flag regulation would restrict the way I enjoy television.

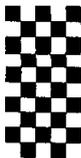

The digital television transition relies on convincing consumers of the benefits of switching to and buying digital television equipment. That transition will be far more palatable to me as a consumer if switching doesn't mean discarding my existing home network, buying new high-resolution displays, and finding room for yet another device in my living room. Please do not allow the MPAA and its allies to hinder the transition by making us buy special-purpose DTV devices that are more expensive and less valuable.

In addition, I am very concerned about the fair-use implications of the broadcast flag. With today's technology, I can be more than a passive recipient of content – I can modify, create, and participate. I can record TV to watch later, clip a small piece of TV and splice it into a home movie; send an email clip of my child's football game to a distant relative; or record a TV program onto a DVD and play it at my friend's apartment. The broadcast flag seems designed to remove this control and flexibility that I enjoy.
