Subject: Please Support the Consensus Plan -- FCC WT Docket #02-55

Commissioner Michael J. Copps
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Commissioner Copps,

Emergency response communications have never been more critical, or more difficult.

That's because of a common problem on police, fire and EMS radios: interference. Interference, garbled or dropped communications, inhibits first responders from doing their jobs safely and effectively. Essentially, if first responders can't communicate, they can't help and may themselves be in danger.

There is a solution before the FCC: the Consensus Plan. Over 300 public safety organizations, local governments, and congressional officials support this Plan because it eliminates interference before it occurs and at no additional cost to federal, state or local budgets - or the American taxpayer.

The 300 Consensus Plan supporters that have filed with the FCC, along with John Walsh, host of America's Most Wanted, recognize the importance of communications for America's police, fire and EMS workers. This problem has existed long enough, and our first responders deserve better. I am asking you to help.

Please listen to the voices of public safety. Our neighborhoods, families and fellow public safety professionals cannot afford to wait any longer.

Sincerely,

Judy Savasta

Subject: subject issued

Dear Sir,

I should appreciate your surprise while receiving this letter. In any case, I am left with no options but to contact you in this manner. I got your esteemed address from the internet during my search for a reliable Individual/company who can jointly handle strictly confidential transaction with me which involves a reasonable sum of money.

Due to the nature of this business transaction, a neutral person like you is preferred. For introductory purpose, I am Isa Foday Sankoh, The son of the late Foday Sankoh, The former chairman and leader of the revolutionary united front (R.U.F) in Sierra Leone. Who was arrested in 2000 by the Ecomog deployed soldiers in Sierra Leone, and was later handed over to the united nation for war crime tribunal for trails for the crime committed by the Rebels in my country during the 10 years of civil war. And he later died in the custody of the united nation before the trail. This front was founded at the height of the 10 years civil war recently ended in my country the republic of Sierra Leone.

Following the dead of my father, his accesses of money have been investigated by the government intelligence and the official of the United Nations. As you might have heard how a lot of my father's bank account in Switzerland and North America has been frozen. There are recent rumours of my father's bank accounts in South Africa and North Korea which my mother Fatou Sankoh denies it.

Before the death of my father, he have instructed my mother to go to Johannesburg-south Africa to deposit the sum of US\$18,500,000.00 (eighteen million five hundred thousand united state dollars) in a private security company, as a family valuable, when he realized the looming danger from the government and his international inference on him.

Since the death of my father, the present government of my country, Alahji Tijan Kabba has maintained a steady policy of clamp-down on his fortune and his legacy, that is the reason why we are seeking for international help to invest this money with somebody neutral. My mother deposited the money in a consignment with a finance company in South Africa and the fund has been transported to their Europe office in the Netherlands due to the rumours of my father's account in South Africa.

Sir, following the outlined reasons for investigation, I am soliciting for your esteemed organizations confidential assistance to take custody of eighteen million five hundred thousand United States Dollars (US\$18,500,000.00) and also to front for my family in the areas of business you consider profitable

These Consignments containing the funds have secretly been concealed and deposited with a Diplomatic Security firm where it can easily be taken delivery of by a recommended beneficiary. The consignment containing the funds will be released to you or your organization by the Security firm based on my recommendations on that note; you will be presented as our partner who will be fronting for my family in any subsequent ventures.

It is against this background that I fled the country to the Netherlands where I currently sought for political asylum, which was granted. I am making frantic effort on the best way to handle this money. So I sought advice from an attorney who advised that we must seek for a trustworthy foreign business partner whom can invest this fund in a profitable venture. I have decided to seek foreign assistance, as the Netherlands law prohibits asylum seekers from operating bank account or involve in financial transaction of any kind. Meanwhile, I sincerely ask for your assistance to get this money through your account I and my family have decided to give 25% to your organization if you are able to help us claim this consignment. And 5% will be use for upsetting all the expenses incurred in the course of concluding this venture and the remaining 70% that will be for my family.

Please, I need your entire support and co-operation for the success of this business

ventures, your utmost confidentiality and secrecy is highly required, due to my family's present predicament. Also you stand to gain from any investment you might introduce us into after the conclusion of the transfer. Please keep this confidential until we finalize and get this money into your account for security reasons.

I am presently in the refugee camp here in the Netherlands under the United Nations and I can be reached by responding to the following email address: isaday1@zwallet.com isaday1@netscape.net

Regards,

Isa Sankoh

Dear Commissioner Copps,

Emergency response communications have never been more critical, or more difficult.

That's because of a common problem on police, fire and EMS radios: interference. Interference, garbled or dropped communications, inhibits first responders from doing their jobs safely and effectively. Essentially, if first responders can't communicate, they can't help and may themselves be in danger.

There is a solution before the FCC: the Consensus Plan. Over 300 public safety organizations, local governments, and congressional officials support this Plan because it eliminates interference before it occurs and at no additional cost to federal, state or local budgets - or the American taxpayer.

The 300 Consensus Plan supporters that have filed with the FCC, along with John Walsh, host of America's Most Wanted, recognize the importance of communications for America's police, fire and EMS workers. This problem has existed long enough, and our first responders deserve better. I am asking you to help.

Please listen to the voices of public safety. Our neighborhoods, families and fellow public safety professionals cannot afford to wait any longer.

Subject: A Major scam via internet??

I recieved this in an e-mail. Thought you might want to check it out. I'll save the full letter if you find this of interest.

Bureau of Public Enterprise,
Federal Secretariate, Ikoyi,
Lagos-Nigeria.

Dear Friend,

It is OUR honour and pleasure to write you this email on behalf of ourselves irrespective of the fact that you are not acquainted with us. We hope you will receive it in good spirit and respond upon it with a kinder attention. We are top officials of the Bureau of Public enterprise (BPE) and a constituent members of the Federal Government Contract Review Panel (C.R.P.), drafted to represent the federal government in its on going deregulation and privatization exercise. We are interested in investment opportunities in your country with funds, which are presently trapped in our country. In order to realize this goal we solicit your assistance to enable us transfer into your designated bank account the said-trapped funds. With profound respect, we humbly make to let you know we got to know you while searching for a foreign partner In The European /American Investor for the year 2003/2004

edition, which we could reliably do business with.

We however also use this opportunity to strongly solicit for your maximum trust and simplicity.

Point blank. In the course of our assignment, we

discovered the sum of US\$10 Million {Ten Million United State Dollars}: A certified contract sum, in

the books of the Federal Ministry of Works and Housing (FMW&H), with funds in our Apex bank ready

for payment. Our investigation would have been futile without the support of some top key

officials of (FMW&H) though, the investigation clearly reveals as nothing else could the

malfeasance of the former boss/ minister of the

ministry, who often awarded contracts to himself and

his in-laws under disguise identities until he prematurely retirement. As ambitious employees we

considered also to avail ourselves of the

opportunity and set aside this funds to be utilized

in our private investment in due course. So we have decided to take out a transfer of this funds with

you. Please, our major instigation for seeking your urgent assistance to enable us quickly withdraw the

funds out of circulation before the FMW&W's annual audit, and before it's privatization, is due

to our positions as government employees. As government employees we are greatly entrenched by

laws and By-laws, which prohibits us from acquiring the funds in our name. Due to this

predicament we can not be physically involved in the transfer and management of the funds. Hence we have

thus contacted you who will be our associate partner, to represent us by way of proxy and

fiduciary agent in order to avoid any probe by the Federal Government.

We only deem it fit to contact you at this time due to the recent federal government approval to all its ministries to commence payments of contracts to which settlement is due to reduce debts accumulation carried forward from previous years. However, all modalities have been worked out with the appropriate authorities to facilitate the swift remittance of the funds to your designated account, and have duly earmarked the funds to satisfy both parties (you and us) fairly so that we shall enjoy the proceeds of the funds with absolute

peace of mind:

1. 25% of the funds shall be fee for your services,
2. 10% of the funds shall be retained in settling

incidental expenses such as Taxation and other local and foreign expenses,

3. While the balance 65% of the funds shall be for

us.

Finally, we are counting so much on you as trusted

and reliable partner to help secure investment outlets whereby these funds are invested in your

country on good and lucrative investment under your direct supervision. Be aware that you will

manage the complete process as our foreign partner and trusted friend, as your unfeigned support stand

as the only spring board we needed to launch us into the privilege of realizing our goal, we humbly

appeal to you not to turn down our request. If the above is workable by you, please send us an email

through kenneth20003@sify.com, and enclose your

private telephone, mobile phone and fax number where we can reach you.

As soon as we receives the above information from you, we will get in touch with you immediately to discuss the process of making you the new beneficiary of the funds.

Thereafter, we shall write letters for claims requesting payment of the funds to be transferred to your nominated bank account.

Be rest assured that funds have been set aside to take care of all expenses that we may incure in the course of this transaction.

Thanking you in anticipation for your maximum co-operation.

Yours Sincerely,

Mr. Kenneth Okhio.

Subject: Please Support the Consensus Plan -- FCC WT Docket #02-55

Chairman Michael K. Powell
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Chairman Powell,

Emergency response communications have never been more critical, or more difficult.

That's because of a common problem on police, fire and EMS radios: interference. Interference, garbled or dropped communications, inhibits first responders from doing their jobs safely and effectively. Essentially, if first responders can't communicate, they can't help and may themselves be in danger.

There is a solution before the FCC: the Consensus Plan. Over 300 public safety organizations, local governments, and congressional officials support this Plan because it eliminates interference before it occurs and at no additional cost to federal, state or local budgets - or the American taxpayer.

The 300 Consensus Plan supporters that have filed with the FCC, along with John Walsh, host of America's Most Wanted, recognize the importance of communications for America's police, fire and EMS workers. This problem has existed long enough, and our first responders deserve better. I am asking you to help.

Please listen to the voices of public safety. Our neighborhoods, families and fellow public safety professionals cannot afford to wait any longer.

Sincerely,

RAY MILLER
