Decision—Denied in full

On the form 471 I put down the wrong 470 application number. During the review process, he told me it was wrong. I looked on the previous year's form that received the discounts and told him that number. I asked him if it was the correct information and if the discounts would be approved. I assumed I had given him the correct information because he agreed. After I got denied again I called into the USAC and talked to another associate and asked why it was denied again. He looked up my records and immediately told me that I should use the number from 2 years ago. Why did the reviewer not tell me the correct number to use. This person looked at my information from previous years and told me exactly what number should have been included on the form.
