Re: Errata for Sony Certifications in MB Dockets 04-55, 04-56, 04-57, and 04-58, In the Matter of Digital Output Protection Technology and Recording Method Certifications: MagicGate Type-R for Secure Video Recording for Hi-MD Hardware, Memory Stick PRO Software, Hi-MD Software, and Memory Stick PRO Hardware (respectively)

Dear Ms. Dortch:

In the course of reviewing the technology certifications filed on March 1, 2004 in the above-captioned dockets, Sony Corporation ("Sony") discovered a number of typographical and minor editorial errors in the documents that we filed. None of the errors are substantive; however, for completeness and clarity, we have compiled errata in the attached tables and are placing them in the public record.

This notice is being filed electronically in accordance with Section 1.1206 of the Commission's rules.

With sincere regards,

/s/ John M. Godfrey
