Re: *Notice of Ex Parte Presentation*: CC Docket Nos. 01-92 and 96-262.

Dear Ms. Dortch;

Yesterday, April 21, 2004 Robert Quinn Jr.(AT&T), Henry Hultquist (MCI) Richard Metzger (Lawler, Metzger and Milkman, representing MCI) and I met with Christopher Libertelli, Senior Legal Advisor to Chairman Michael K. Powell. AT&T and MCI urged the FCC to clarify that the CLEC Access Order prohibits the billing practice proposed by NewSouth in its recent written *ex parte* submissions and to deny the US LEC petition. NewSouth's double billing scheme violates the longstanding FCC prohibition against LECs charging their access customers for functions and features the local carrier does not provide. All parties in this proceeding agree that clarification is necessary to avoid unnecessary litigation in June, when the CLEC Access Order requires that all non-rural CLECs tariff their access rates at levels equivalent to the competing Incumbent Local Exchange Carrier (ILEC).¹

In addition, both companies also reviewed the circumstances surrounding the US LEC petition. Similar to the situation presented above by NewSouth, US LEC simply seeks the ability to impose additional access charges on interexchange carriers, when in fact, the CLEC provides no access service or functionality. Where a CLEC simply inserts itself between the CMRS provider and the ILEC tandem, it provides no genuine access function and should not be permitted to charge the interexchange carrier access

The positions expressed by both companies were consistent with those expressed in their previous filings in the above referenced proceedings.

Consistent with the Commission rules, I am filing one electronic copy of this notice and request that you place it in the record of the proceedings.

¹ Seventh Report and Order and Further Notice of Proposed Rulemaking, CC Docket 96-262, Para 54.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter H. Smith". The signature is written in a cursive style with a large initial "P".

cc: Christopher Libertelli
