

As an FM radio listener, I would recommend that WBEZ (facility ID: 66649, File Numbers: BLED-19850628KL and BXPED-20020927AAR) NOT have it's license renewed.

I was offended by racial remarks made in an audio article on immigration broadcast on March 10, 2004. The article made disparaging remarks about whites. This is just a recent example of the subtle promotion of class warfare that NPR and WBEZ produce. Large and favorable amounts of broadcast time are spent on politically correct groups such as gays, women and select racial minorities. Little and unfavorable amounts of time are spent on politically incorrect groups such as firearm owners, the rich, and Republicans.

When will we achieve a society where an individual is "judged by the content of his character"? Certainly, not while the media promotes class conflicts between the diverse segments of our nation's population. For this reason, to promote harmony among all individual that make up our society, that I recommend the broadcast license for WBEZ be revoked.
