

**Cellular South Licenses, Inc.**  
**Construction Plans Related To Alabama ETC Status**  
May 14, 2004

Over the next 18 months, the company has plans to add an additional 7 – 10 new sites. These new sites are projected to be built around the Fairhope and Point Clear communities, as well as communities located along the corridor between Mobile and Citronelle. These plans will be further developed over the coming months and the exact locations of future cell sites are subject to change as the company completes its engineering studies. The company would be pleased to include in its annual report to the Commission its progress in constructing these proposed sites and its use of high-cost support for the benefit of Alabama consumers.
