

Dear FCC,I am a satisfied customer of XM Satellite Radio. I enjoy the variety and quality of sound that it provides, including the traffic and weather stations. I pay for the service provided by XM Satellite Radio and should not be restricted by the National Association of Broadcaster as to what I can listen to. I respectfully urge you to reject the NAB's petition 04-160 and allow XM Satellite Radio to provide the improved programming that the public deserves. I hope that you try this service for yourself. I know that after a week you will be hooked, too.

Sincerely,  
David Miller
