

I have been an XM Radio listener since the first month it was introduced and I feel I benefit greatly from listening to XM Satellite Radio and its traffic and weather channels. My XM satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160. Further, I support XM's ability to provide the kind of programming that I have demanded and deserve.
