

I am strong supporter of XM radio and have purchased the service for all 3 of my vehicles. The variety of music and entertainment can not be matched on AM or FM. I also use the traffic and weather offerings from XM because they are faster and easier to use than traditional AM/FM offerings. These are paid services which are my choice to pay for. I do not believe that the National Association of Broadcasters should be able to dictate what I hear and pay for. I urge the FCC to reject the NAB's petition 04-160 and allow XM radio to choose the programming that consumers desire for themselves.
